

How to start your edible garden "The Three Sisters"

www.backyard-farmer.com

● Sweetcorn

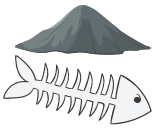

● Squash

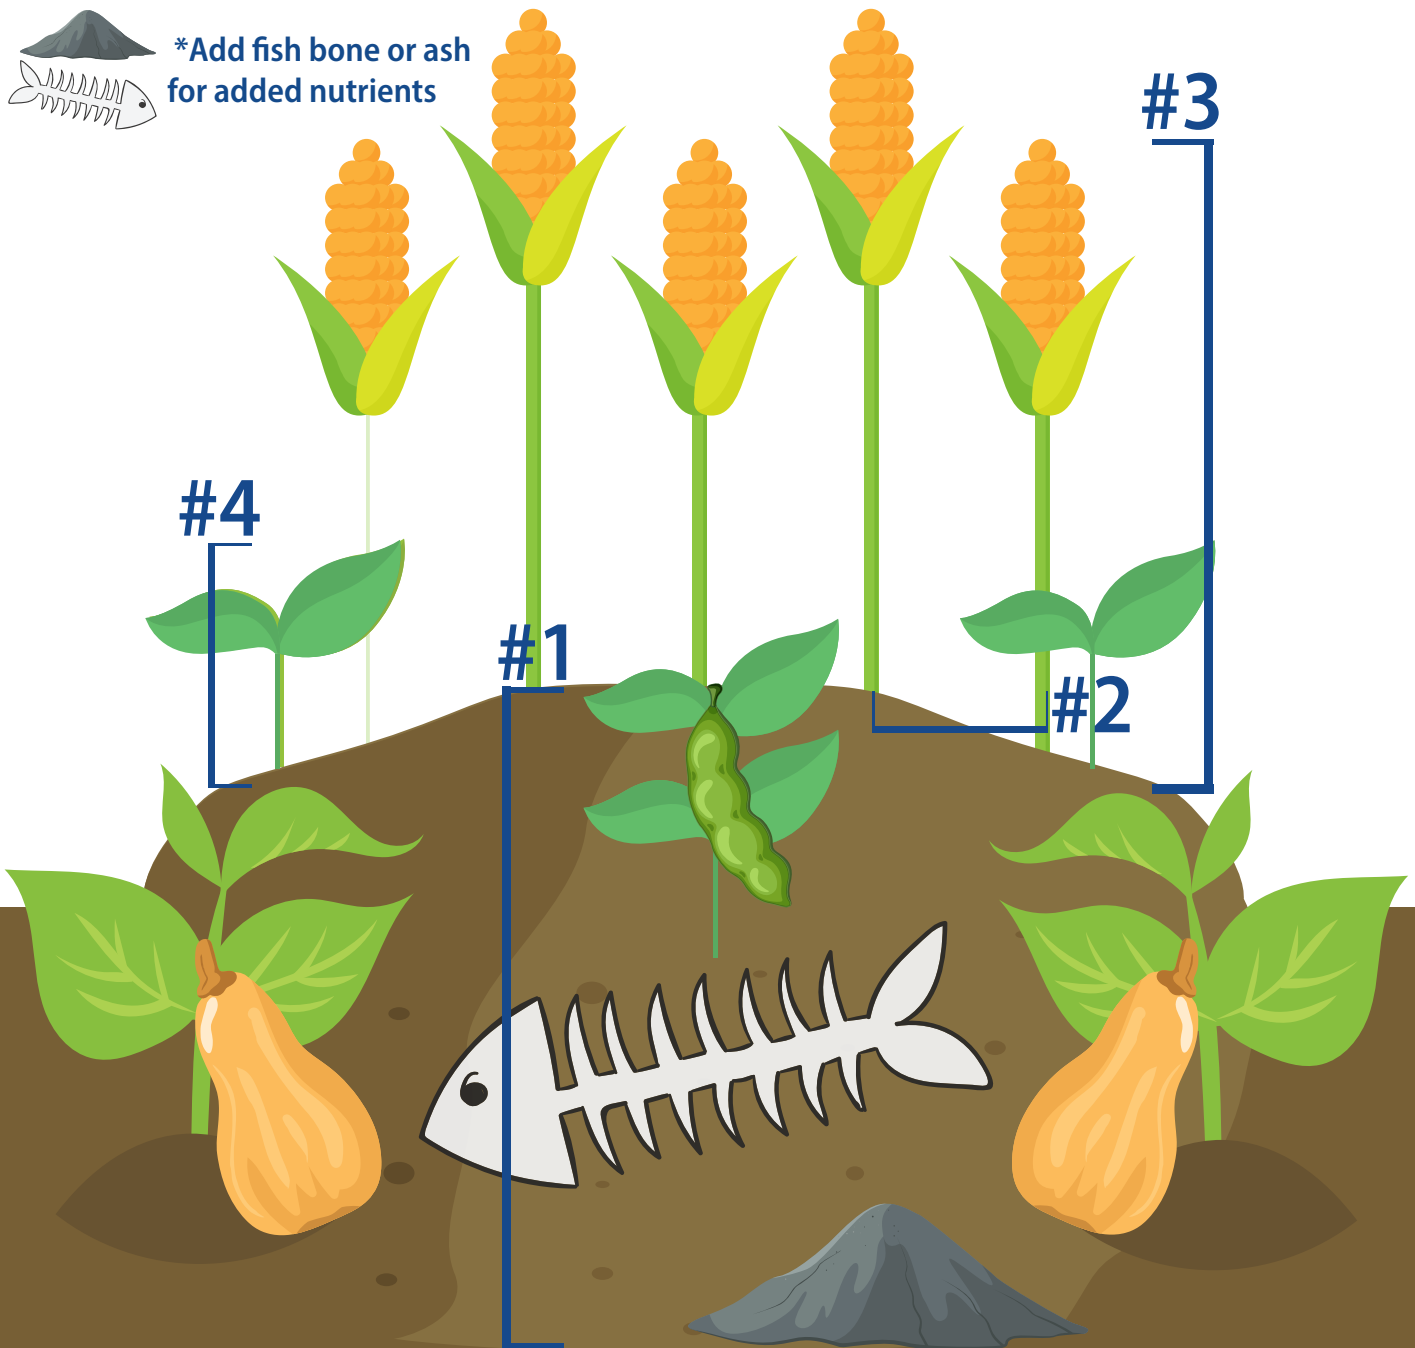

● Pinto Beans

1. Build a mound of soil around 18" in diameter at the bottom, 10" at the top & 4" high
2. Plant your corn kernels about 6" apart
3. When the corn is knee height, plant the pinto beans
4. Plant the squash seeds when the beans are around 6" tall

*Add fish bone or ash for added nutrients
